The logo for STENIX, featuring the word "STENIX" in a white, sans-serif font, followed by a stylized "X" in a teal color. The background of the entire image is dark with abstract, glowing teal and orange patterns, including concentric circles and a grid-like texture. On the left side, there are three large, stylized coins. The top one is teal with a large "X" in the center and the word "STENIX" on the left and right sides. The bottom two are gold with a stylized "X" in the center and the word "STENIX" on the left and right sides.

## WHAT IS STENIX?

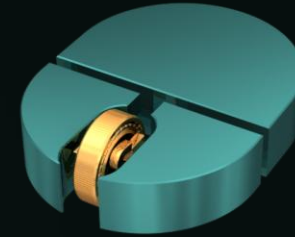

Stenix is a revolutionary blockchain platform that allows users to transmit messages, including valuable ones, within their blockchain. Network validators maintain high security and system stability. Stenix offers users the ability to create their own cryptocurrencies easily and quickly using an adaptable solution. The platform focuses on security and efficiency, providing a robust and fully secured blockchain without the need to interact with other blockchain systems.

## Benefits of Stenix

Stenix is a comprehensive solution that covers all needs within the existing blockchain framework. The platform offers a number of advantages, including support for smart contracts, minimal fees and reliable operation. It also allows every individual or organization to easily create cryptocurrency for personal or corporate purposes. Create your token in one click on the Stenix blockchain.

### ONE-CLICK TOKEN CREATION

**INSTANT  
TRANSACTIONS  
WITHOUT  
COMMISSIONS**

**PROTECTION AT  
THE LEVEL OF  
THE BANKING  
SYSTEM**

**TOKEN  
CREATION IN 60  
SECONDS**

**EASY  
INTEGRATION  
WITH THE MOBILE  
APPLICATION**

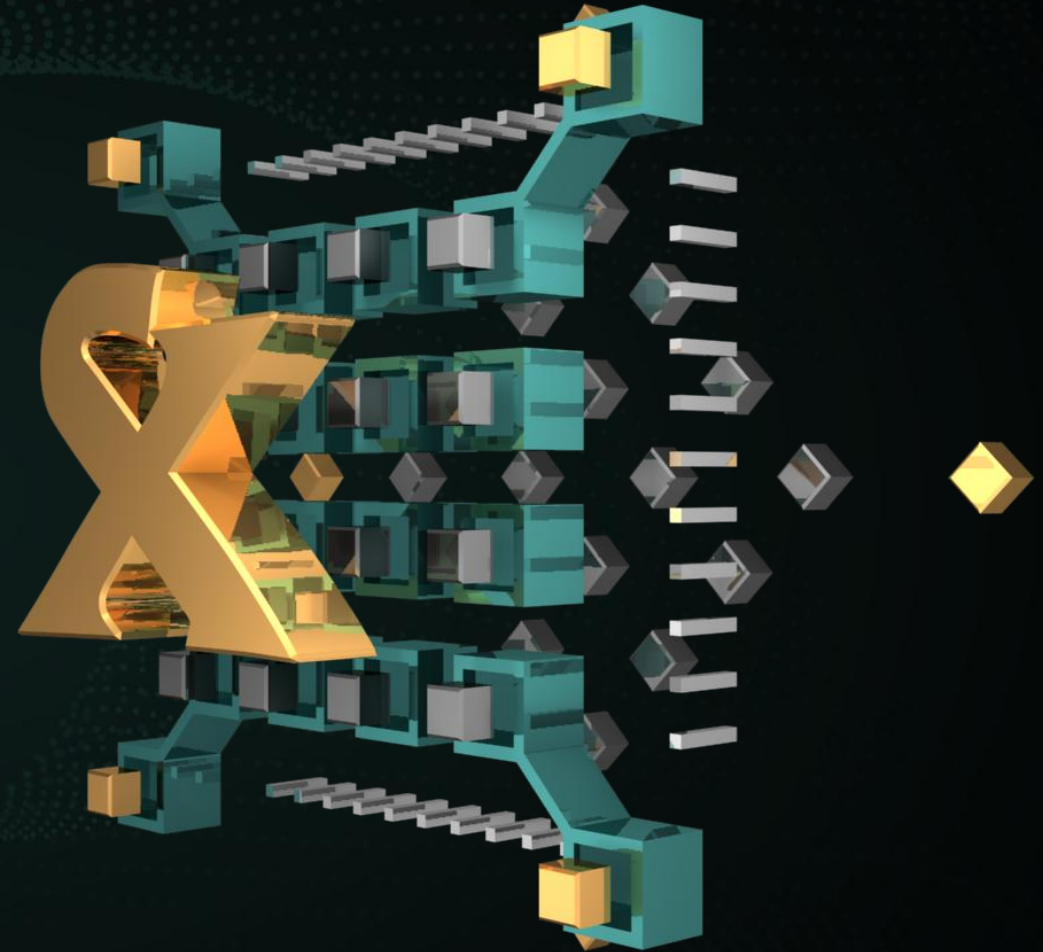

## Benefits of Stenix

Stenix is more than just a blockchain platform – it is a catalyst for innovation, creativity and financial empowerment.

Thanks to our versatile cryptocurrency creation tool everyone can launch their own digital currency and open new opportunities in the digital economy. In just one click. Immediately.

# Business Model

The STEN token utilizes tokenomics, inflationary or deflationary methods and supply dynamics to support sustainability, growth and stability for all stakeholders in the Stenix ecosystem.

INFLATIONARY AND  
DEFLATIONARY MEASURES
