STENIX – ECOSYSTEM OF FINANCIAL FREEDOM

Decentralized platform on its
own blockchain with STEN token

REGISTRATION

What is Stenix?

Stenix is the only financial platform on a unique blockchain, offering the STEN token and a wide range of products for earning, asset management and project creation.

- **Key Features:**

Own high-performance blockchain

Income up to 100% per annum

Transparency and security of transactions

Problems and solutions

● Problem:

High
commissions

Low
transparency

Difficulty of
accessing DeFi

● Solution

Low
fees

Complete
openness

Optimizing
connection

Farming

Contribute assets to liquidity pools and earn up to 100% per annum

Daily STEN token accruals with flexible rates

Dependence of profitability on demand for STEN and partner activity

Example: \$1000 in a pool can earn up to \$1000 per year

Staking

Freeze STEN tokens for passive income up to 50% per annum

A secure process through smart contracts that ensures transparency

Suitable for long-term investors looking for stability

Example: \$5000 in staking brings up to \$2500 per year

Fast and secure exchange of crypto assets
(STEN, USDT, ETH, BNB and others)

Low commissions, part of which is distributed
among partners

Intuitive interface for daily
operations

Example: Exchange \$1000 to STEN
with 0.5% commission

Lending Market

Lenders: Provide assets and receive up to 50% per annum

Borrowers: Get loans on flexible terms with low rates

Partners: Get a share of the platform's commissions

Example: A \$10,000 lender earns up to \$5,000 per year

Token Creation

Create your own tokens on the Stenix blockchain in 1-2 clicks

Suitable for personal projects, startups or trading scenarios

Simple interface for token setup (name, emission, parameters)

Example: Launching a token for trading in 5 minutes

Crowdfunding

Present projects and attract investments in STEN tokens

Complete KYC for security and trust

Investors receive a share of the projects' success, the platform receives a commission

Example: Opportunity to receive large investments for all startups

Voting in the DAO

Govern the platform through STEN token voting

The weight of the vote depends on the tokens

Vote for projects, updates or submit your own ideas

Example: Holders of 100,000 STEN and above are given voting rights for any platform update

Central Arbitration

Exchange assets between blockchains
(Ethereum, BSC)

Mechanism: Token locking in one
network, release in another

Arbitrage: Make money on price
differences between networks

Example: Buy USDT on BSC for \$0.99, sell
on Ethereum for \$1.01

NFT Marketplace

Create, sell and buy NFTs on the Stenix blockchain

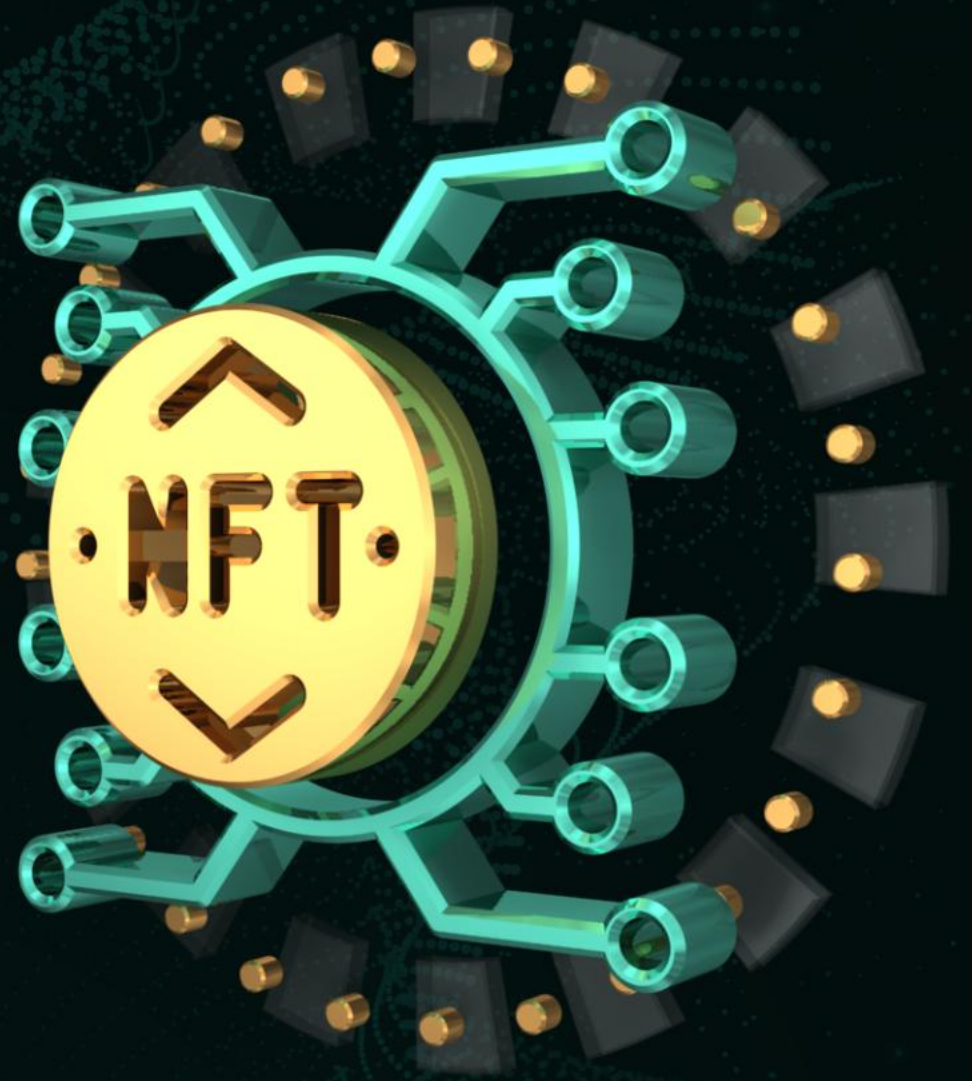

Support art, music, memes and other assets

Royalty for creators on resale, platform commission

Example: Selling an NFT painting for 500 STEN with 10% royalty
